

Read the contexts provided for the different scenarios. Then, create a sentence using the key words provided and the most suitable version of the simple future. Here's an example:

EXAMPLE: Scenario 1 (Automotive Industry - Córdoba):

Context: The CEO of the car manufacturer in Córdoba scheduled a press conference months ago to announce the release date of their new electric pickup truck next Tuesday.

Company/ launch/new electric pickup/ Tuesday

ANSWER: *The company is going to launch the new electric pickup truck next Tuesday.*
(Reason: It is a pre-arranged plan).

Scenario 2 (Energy Sector - Vaca Muerta):

Context: Considering the sudden surge in global energy demand and current market conditions, you express your personal opinion that natural gas prices from Vaca Muerta are set to increase dramatically next quarter.

Natural gas prices/increase dramatically/next quarter

YOUR ANSWER: _____

Scenario 3 (Wine Industry - Mendoza):

Context: "Look at those dark, heavy storm clouds over the vineyards in Mendoza right now! The temperature is dropping fast."

Frost/ damage/grape harvest

YOUR ANSWER: _____

Scenario 4 (Tech Sector - Buenos Aires):

Context: A software startup in Buenos Aires just received an unexpected phone call from an international investor offering funding right this second. The founder decides on the spot to accept it.

Founder of startup/accept/investor's offer

YOUR ANSWER: _____
