

Understanding Square Numbers

TRUE or FALSE

The Cube is a Geometric Solid

The Cube DOES NOT have all sides equal

The Cube has six corners

The Cube has six faces

The Volume of a Cube is found by multiplying its side three times

$$2^3 = 2 + 2 + 2 = 6$$

$$3^3 = 3 \times 3 \times 3 = 9$$

Calculate

$$4^3 =$$

$$5^3 =$$

Identify the square numbers

0

1

2

6

8

9

27

28
