2 Think and Share

Read each question and write your answer in the space provided. Be honest and use your own ideas.

1. Which disease do you think is the most common in your school or community? Why do you think it spreads easily?

2. What is one way you can help prevent the spread of disease at home or at school?

3. Which type of medicine do you prefer (pill, capsule, tablet, or syrup) and why?

4. What do you think is the most important thing to do when you feel sick? (e.g., rest, drink water, see a doctor, or take medicine)

5. How can vaccines help your community stay healthy?

Small actions make a big difference!
