VSTARSCHOOL

Max Science 5

Homework – Week 11

Lesson 2.2: Condensation

Ranking

Student's name: _____ Class: _____ Date:_____

I. Choose the correct answer.

_____*particles*_____ are the tiny parts that makes up all matter.

1. _____ is the process of changing from liquid to gas.

2. _____ is the hotness and coldness of something.

3. _____ is the device we use to measure the temperature.

4. _____ is when the gas meets a cold surface and becomes liquid.

5. _____ is a very small or tiny drop of liquid.

II. Read and choose the correct answer to fill in the blanks.

condensation	~~water~~	condenses
vapour	cold	droplets

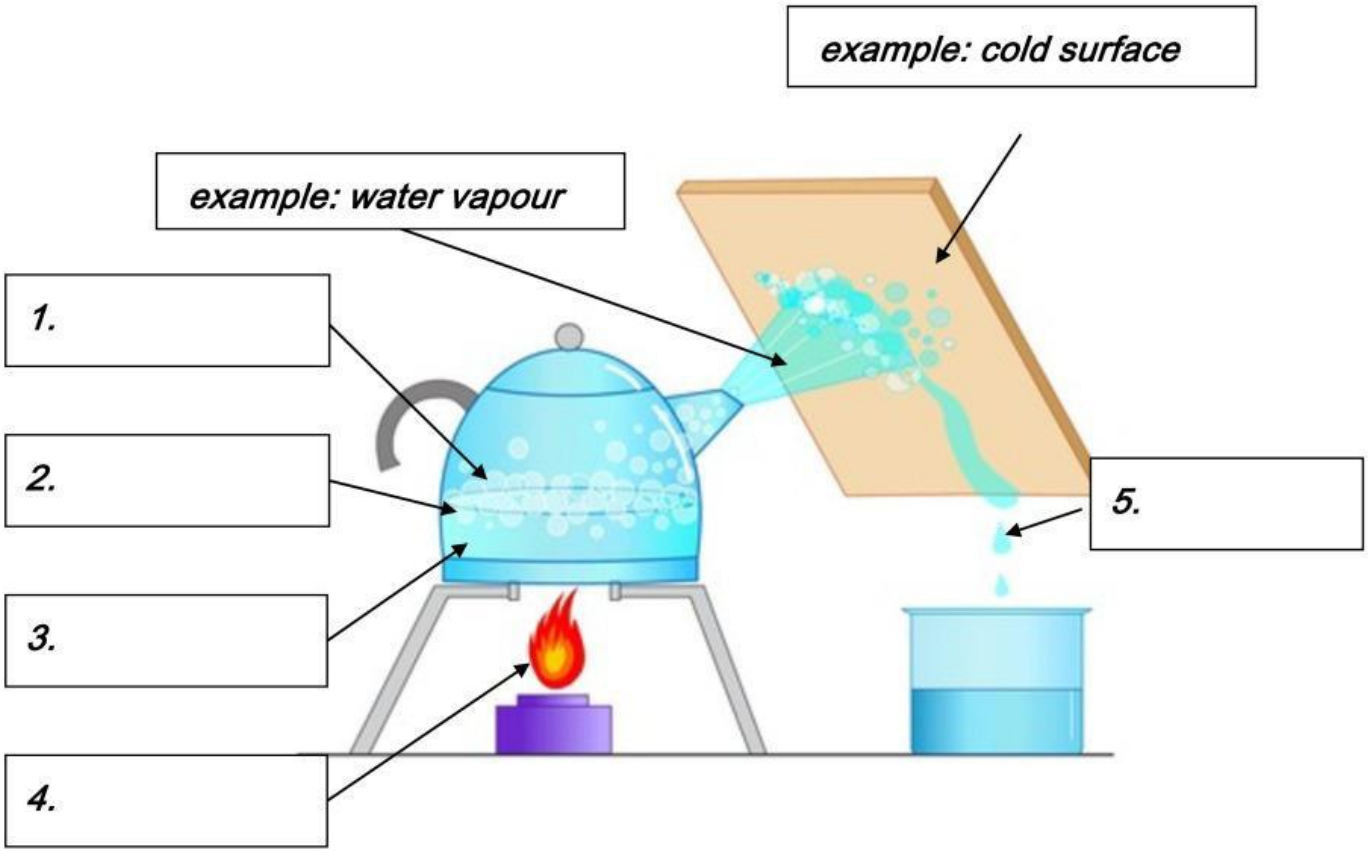

Condensation happens when _____*water*_____ evaporates and then ***1.*** _____ into water droplets. The ***2.*** _____ from the evaporation collects on the ***3.*** _____ surface. This can be seen when a cold soft drink has water ***4.*** _____ on the can. The process of the gas forming into liquid is called ***5.*** _____.

LIVEWORKSHEETS

III. Complete the diagram with the correct words from the box.

liquid	heat	~~water vapour~~	bubbles
~~cool surface~~	water		droplets

EVAPORATION and CONDENSATION
