# Fun School Days

**Read the passage and do the exercises.**

At school, we have different subjects to learn. One of them is **IT (information technology)**, where we use computers and learn cool things about technology. The teacher shows us how to click and type, and it's like a fun game.

We also have **PE (physical education)**, which is all about moving and playing games. We run, jump, and sometimes even play with colorful balls. PE is our time to be active and have fun.

In our classroom, we have special teachers. The **English teacher** teaches us how to say words in English, and we practice talking in a new language. The **maths teacher** helps us solve puzzles and count numbers. They make learning fun!

Sometimes, we ask **why** things are the way they are. When we want to know the reason, we use the word **because**. For example, if we ask, "Why is the sky blue?" we might hear, "Because the sunlight scatters in the air, making it look blue."
