HOW TO FIND YOUR PEOPLE?

Making and staying friends is easier said than done. However, 'hard' does not mean 'impossible.'

First of all, be sociable. You may use social networks to keep in touch every day. It is very important to meet face to face sometimes. Try to keep a balance between virtual communication and in-person meetings. If you do not chat online, you will lose your contacts. On the other hand, if you do not hang out with one another offline, you will not become close.

Secondly, do not be a chatterbox. You need to let others speak while listening to them carefully. That does not mean you should be shy and quiet either. Just respect each other!

Thirdly, develop yourself by learning something new every day, trying different hobbies and joining various clubs. This way others will find you interesting to spend time with. Plus, you will be able to make friends who share the same interests as you.

To continue with, be kind, polite and understanding. No one likes selfish and rude people who only think about themselves. However, do not let others disrespect you.

Finally, remember that a friendship based on lies is no friendship at all. Good friends tell the truth, they support and help each other, too. If you are loyal and frank, people will trust you.
