Look at each picture and description. Write NEW or SECOND-HAND on the line below each item.

1. A shirt bought today at the mall with store tags. _____

_____

2. A sturdy bicycle used by an older brother for two years. _____

_____

3. A novel bought at a school used-book fair. _____

_____

4. Fresh running shoes right out of the factory box. _____

_____

5. A denim jacket purchased from a neighborhood thrift shop. _____

_____

6. A water bottle unopened in original store wrapping. _____

_____

Read the short story below. Then answer the five multiple-choice questions.

Sofia cares about our planet. Every morning, she rides a second-hand bicycle to school. Its frame is made of strong metal. Sofia carries her lunch in reusable containers made of plastic. In her kitchen, her family stores beans and rice in large jars made of glass. Sofia also loves to read second-hand comic books from a local garage sale. Reusing everyday items keeps trash out of landfills and protects the environment.

1. What is the frame of Sofia's bicycle made of?

a) Plastic b) Metal c) Glass

2. Sofia's bicycle is:

a) Second-hand b) Brand new from a factory c) Broken and unusable

3. What does Sofia's family store in glass jars?

a) Soda and juice b) Pens and pencils c) Beans and rice

4. Sofia's lunch containers are made of:

a) Plastic b) Metal c) Glass

5. Where does Sofia get her second-hand comic books?

a) From a bookstore in the mall b) From a local garage sale c) Directly from the factory
