I WANT IT, AND I WANT IT NOW! Why are we so impatient?

Tuesday 22 Oct 6:00 am

Whatever happened to patience?

We don't like waiting for things anymore. With faster broadband, instant searches, and immediate downloads, we expect things to happen immediately, and if they don't we get impatient.

Fast food restaurants have changed the way we eat. The growth of mobile phone apps like Tinder has changed the way we meet new people. We don't need to wait a week to see the next episode of a TV series – we can download it on Netflix. We are even walking 10% faster than 20 years ago, and talking more quickly. Everything is getting faster, but is it getting better? That depends on how fast you like to live.
