Bicycles are better

Everyone wants to live in _____ town or city without pollution. And, naturally, we also want _____ town or city where we live to be people-friendly and easy to get around. But, like all _____ city-dwellers, we know there's _____ issue with transport. How do we get around without causing pollution? The city of _____ Helsinki is _____ European capital which has always embraced bikes and cycling, so why not here in _____ UK, too? Officials in British cities throughout the country need to do more to encourage people to use _____ bicycles by creating more bike lanes and safe spaces for cyclists.
