CHALLENGE 6 | READ & DISCOVER

A. Read the text and answer the questions in complete sentences.

MEET THE IGUANA!

An iguana is a fascinating reptile. It is usually green or brown, which helps it hide from other animals. It has got four legs, a very long tail, and sharp, strong claws to climb branches easily. Its entire body is

LIVEWORKSHEETS

covered with dry scales. Iguanas love warm and sunny places, like rainforests and tropical islands. Many iguanas spend most of their time high up in the trees to stay safe and soak in the sun. They are herbivores, which means they eat plants, flowers, and leafy greens.
