/ 6

G Reading: Recognizing topic sentences

Read the text from an online article. Match the topic sentences to each paragraph. Two sentences do not match any of the paragraphs.

Technology and sport

Technology has changed our lives in many ways, and it is no different for the world of sport.

[1] ___ Today, they can wear clothes to help them move faster and shoes that hold tightly onto the running track. The same is true of sports equipment: there are tennis rackets that hit the ball harder and bicycles that weigh very little.

[2] ___ Tiny computers worn on the body measure temperature and heart rate and can warn of any problems. The data also helps athletes identify their strengths and the areas they need to work on.

[3] ___ An example of this is the HANS device, which is used in car racing. This is a product made of a new material that holds the head and neck of a racing driver in place so that they don't get seriously injured in an accident.

[4] ___ Today we can see sports events as they happen on computers and smartphones as well as on TV. Very small cameras worn by athletes give us a much better idea of the speed and skill needed to play the sport.

[5] ___ Video cameras allow them to analyse other teams in order to plan an effective strategy in future matches. Coaches can also show their own players videos of their performance to support their advice to individuals and to the team.

[6] ___ Referees use a system called Hawk-Eye Technology to help them make important decisions. The system is able to follow a ball and show exactly where it lands.

These are only a few of the technologies that have changed the sports world in recent years. In the future, there are sure to be many more.

A Video technology has also improved the experience for people watching sports.
B One new device improves communication between the people who ensure fair play during a game.
C There are plenty of other technological devices that look after an athlete's health.
D Some inventions have helped athletes improve their performance.
E Sports coaches have benefited from video technology, too.
F The people who have probably benefited most from video technology are those who ensure fair play during a game.
G Another piece of equipment helps athletes get better again when they are injured.
H Other inventions are designed to protect athletes from injury in their chosen sport.
