HIKING EXPERIENCE

Last month, my friends and I went hiking at Mount Tangkuban Perahu in West Java. Before the trip, we had planned the route and prepared our bags, food, and drinking water. During the hike, we walked along forest paths and saw tall trees, volcanic rocks, and wide craters. The air was cool and fresh. Before we reached the main viewpoint, we had walked for almost two hours. After the hike, we returned home safely. By the time we arrived home, we had learned lessons about patience and teamwork. The experience reminded us to appreciate Allah's creation and take care of nature.
