

Volume - Cubes and Cylinders

Find the volume

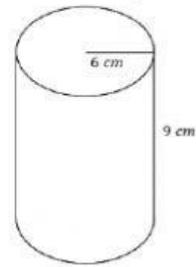

Find the volume of the cube

$$V = s^3$$

$$V = \underline{\quad} \quad s = \underline{\quad}$$

Find the volume of the cylinder

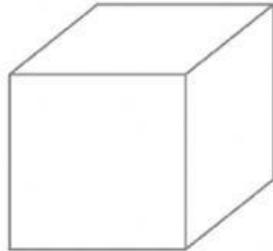

$$V = \pi r^2 h$$

$$V = \underline{\quad} \quad r = \underline{\quad} \quad h = \underline{\quad}$$

Solve for the unknown

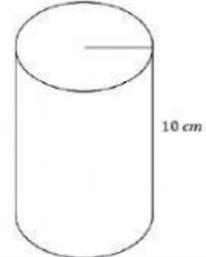

Find the side of the cube if the volume is 125 cm^3

$$V = s^3$$

$$V = \underline{\quad} \quad s = \underline{\quad}$$

Find the radius of the cylinder if the volume is $90\pi \text{ cm}^3$

$$V = \pi r^2 h$$

$$V = \underline{\quad} \quad r = \underline{\quad} \quad h = \underline{\quad}$$
