

Name _____

Date _____

Wages and Salaries 1

1) Tim is paid \$10 for 1 hour of work. If he works overtime, he is paid at "time and a half".

On Monday, Tim worked for 12 hours, **4** of which were **overtime**.

How much money did he earn?

$$\text{Pay for regular hours} = \underline{\quad} \times 8 = \underline{\quad}$$

$$\text{Overtime pay} = \underline{\quad} \times 4 = \underline{\quad}$$

$$\text{Total money earned} = \underline{\quad}$$

2) Mark's basic rate of pay is \$8 per hour. Overtime is paid at time and a half. Last Friday Mark worked for 10 hours, **2** of which were **overtime**.

How much money should he be paid?

$$\text{Pay for regular hours} = \underline{\quad} \times 8 = \underline{\quad}$$

$$\text{Overtime pay} = \underline{\quad} \times 2 = \underline{\quad}$$

$$\text{Total he should be paid} = \underline{\quad}$$

3) Mother earns \$20 per hour. She is paid at "time and a half" for overtime work. Last week she worked for 45 hours, **5** of which were **overtime**.

How much money was Mother paid?

$$\text{Pay for regular hours} = \underline{\quad} \times 40 = \underline{\quad}$$

$$\text{Overtime pay} = \underline{\quad} \times 5 = \underline{\quad}$$

$$\text{Total money paid} = \underline{\quad}$$

4) Bill earns \$6 per hour for regular work. If he works on a Sunday he is paid at "double time".

Last week he worked for 40 hours during the week and **5** hours on **Sunday**.

How much money did he earn?

$$\text{Pay for regular hours} = \underline{\quad} \times 40 = \underline{\quad}$$

$$\text{Overtime pay} = \underline{\quad} \times 5 = \underline{\quad}$$

$$\text{Total money earned} = \underline{\quad}$$
