

FCE Use part 2 (complete with only one word)

The truth is in there ?

For many years now a top secret military air base , known only (1) "Area 51" , has been the subject of intense curiosity for people (2).....believe in UFOs. They think the United States Air Force is hiding(3).....from the public.

It has been suggested that the base is (4).....used as a place for humans and aliens to meet. While this(5)be far-fetched enough for most people, others put forward even (6)extraordinary theories. Some, for example, think the base is used as a "garage" for fixing crashed alien spacecraft; a rumour which started after a flying saucer was said to (7)crashed in New Mexico in 1947.

"Area 51" doesn't appear on any maps and its location has been erased (8).....satellite photographs. It has been reported that photographers who get (9)close to the site have been questioned and even fined. (10).....to this secrecy, conspiracy theories have continued to increase. One of the craziest ideas (11).....far is that the base is used by a secret group whose aim is to develop time-travel technology!

It is (12).....that the "alien hunters" will ever find out what really goes on behind the closed doors of "Area 51" . So (13)....the doors open, the stories are just likely to get bigger, better and maybe even crazier!!
