Hi,

My name is Nathan, and I live in a town called Fulford. At school, we're learning about the history of our town. About fifty years ago, the town was really a village. There was a train station, but there weren't any department stores, hotels or supermarkets. The town was quieter and not so busy. Now, there are lots of cars, lorries and buses. The town is bigger, and there are a lot more people here. It's a great place to live. My grandma lived here when she was young, and she says it was nice and quiet. She doesn't like the noise now.
