- One night Robert had fever and due to hallucinations two characters emerged in his **mind/ books/ bedroom**
- He died at the age of **40/ 49/ 44**

2) CORRECT THE UNDELINED WORD

- The next day Robert jumped into his papers and started writing the story of Dr Jekyll and Mr Hyde, two similar characters
- Dr Jekyll and Mr Hyde was first published in December 1886
- The first manuscript (drafts) got lost and Robert Louis wrote a second one in only 3 weeks

3) WRITE T (TRUE) OR F (FALSE)

- He began to travel around Europe as a way to struggle against his disease.
- He spent six months travelling and didn't like it.
- Fanny Osbourne was divorced with two children.
- He became seriously ill in 1885, the cancer progressed and his health got worse.
- Robert and his family travelled to Samoa in Polynesia and decided to stay because he was well known there.
- The Samoan people respected Stevenson and called him "*Tusitala*" that means "the story teller"
