PERÍMETRO DE POLÍGONOS REGULARES

Clase de Matemáticas 9no grado

Nombre completo:

Indicaciones: Calcule el perímetro de los siguientes polígonos regulares.

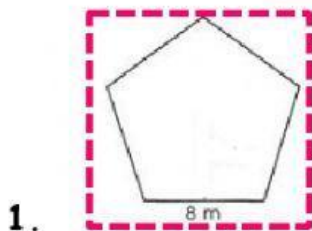

Recuerda la
fórmula:

$$\text{Perímetro} = n \cdot s$$

Siendo

n el número de lados

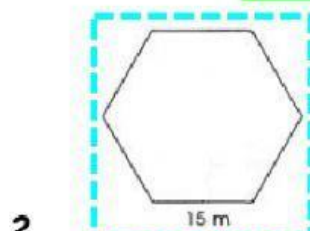

s la medida de un lado

$$P = n \cdot s$$

$$P = \quad \times$$

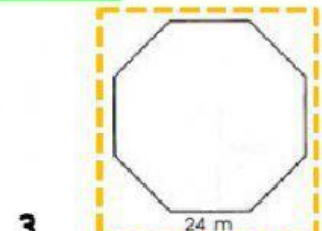

$$P = \quad m$$

$$P = n \cdot s$$

$$P = \quad \times$$

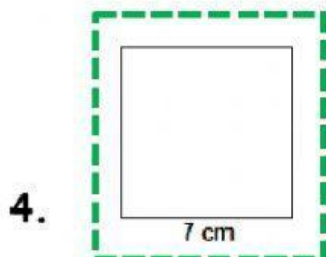

$$P = \quad m$$

$$P = n \cdot s$$

$$P = \quad \times$$

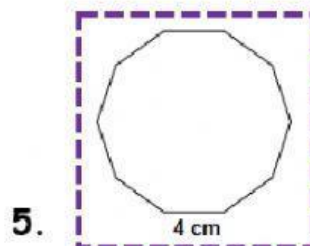

$$P = \quad m$$

$$P = n \cdot s$$

$$P = \quad \times$$

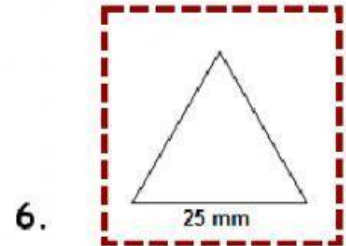

$$P = \quad cm$$

$$P = n \cdot s$$

$$P = \quad \times$$

$$P = \quad cm$$

$$P = n \cdot s$$

$$P = \quad \times$$

$$P = \quad mm$$
