Last week, me and my family went on a trip to Yellowstone National Park.

We went there by car. But I was feeling sick in the car all the way. In the park, we saw a lot of rocks and hot geysers. My mum thought that we were in danger and got really nervous. But she felt better when we left the park. The weather was fantastic. It was warm and it wasn't raining. But it can be very cold in the park at night (0°C) so we had some warm clothes with us.

**Catty**

Last Sunday, we wanted to go to the park but it was raining all day so we went to the Computer History Museum. I was excited because I'm really into computers. The word *computer* was used for the first time over 400 years ago but people produced the first computers in the 1930s. Computers were very big machines then. They could be as big as a classroom! When we were leaving the exhibition, I met Bill Gates. He said hello to me! What a wonderful experience!
