My best friend.

I met my best friend 25 years ago We were both in 5th grade and we were in the same class We didn't speak a lot in the beginning but then we started calling each other on the weekends We both liked to talk about the same things We stayed in the same school until 10th grade but then we went to different schools We stayed close friends and we even went to each other's weddings Now we are both mothers and we still call each other to talk about our kids
