

1-2-3.- HIDROGENO eta OXIGENOAREN KONPOSATU  
BITARRAK eta GATZ BITARRAK

|                                | SISTEMATIKOA | STOCK | TRADIZIONALA |
|--------------------------------|--------------|-------|--------------|
| Ni <sub>2</sub> O <sub>3</sub> |              |       |              |
| BeS                            |              |       |              |
| FeH <sub>3</sub>               |              |       |              |
| AsH <sub>3</sub>               |              |       |              |
| Li <sub>2</sub> Te             |              |       |              |
| HBr                            |              |       |              |
| BaO <sub>2</sub>               |              |       |              |
| AlCl <sub>3</sub>              |              |       |              |
| MnO <sub>2</sub>               |              |       |              |
| BH <sub>3</sub>                |              |       |              |
| Se <sub>3</sub> N <sub>4</sub> |              |       |              |
| HCl                            |              |       |              |
| H <sub>2</sub> O <sub>2</sub>  |              |       |              |
| PbH <sub>4</sub>               |              |       |              |
| CoP                            |              |       |              |
| CH <sub>4</sub>                |              |       |              |
| BrCl <sub>7</sub>              |              |       |              |
| K <sub>2</sub> Se              |              |       |              |
| Br <sub>2</sub> O <sub>5</sub> |              |       |              |
| HgH                            |              |       |              |
| SnO <sub>2</sub>               |              |       |              |
| H <sub>2</sub> Te              |              |       |              |
| Si <sub>4</sub>                |              |       |              |
| Cu <sub>2</sub> O <sub>2</sub> |              |       |              |
| Cl <sub>2</sub> S <sub>3</sub> |              |       |              |
| SiH <sub>4</sub>               |              |       |              |
| N <sub>2</sub> O <sub>5</sub>  |              |       |              |
| Na <sub>3</sub> As             |              |       |              |
| Au <sub>4</sub> C <sub>3</sub> |              |       |              |
| CrO <sub>3</sub>               |              |       |              |
| Ag <sub>2</sub> O              |              |       |              |
| PbBr <sub>2</sub>              |              |       |              |
