SD Tumbuh – Jogja Educational Spirit Kelas : Lower B Inquiry : Our Earth Mata Pelajaran : CIPP Math	Teacher's feedback:
--	---------------------

Hello my Lower B friends!

Today, we are going to learn about 3 different types of graphs.

They are pictograph, bar graph and tally chart. Although they have different form, but have same function. They are easy and quick to read. Let's take a look at this picture.

HOW
MANY?

To solve this problem, we can use 3 types of graph.

1. BAR GRAPH

Use words/pictures, numbers and bars. Used to compare the data.

From this bar graph, we know that there are:.

9 sheeps

4 rabbits

10 pigs

6 chickens

2. PICTOGRAPH

Share data in picture form.

Animals	Picture									
Sheep										
Pig										
Rabbit										
Chicken										

From this pictograph, we know that there are:

9 sheeps

4 rabbits

10 pigs

6 chickens

3. TALLY CHART

Use words and tally chart.

Sheep	
Pig	
Rabbit	
Chicken	

From this tally chart, we know that there are:

9 sheeps

4 rabbits

10 pigs

6 chickens

Nama : _____
Tanggal : _____

EXERCISE:

Drop and drag the pictures of transportations and make pictograph and tally chart. Answer the questions.

PICTOGRAPH

School Transportation	Picture									
Bike										
Bus										
Car										
Walk										

TALLY CHART

Bike		
Bus		
Car		
Walk		

Nama : _____
Tanggal : _____

From that graph we know that:

Total

1. How many people walk to school?

2. How many people ride their bike?

3. Which transport type is most popular?

4. Which transport type is least popular?
