

## Chapter-1 Evolution of Computers

### Q. Match the History of computers

Year	Name of the devices
<p><b>3000BC</b> (First Mechanical Calculating Machine)</p>	<div style="border: 1px dashed black; padding: 10px;"> <p style="text-align: right;"><b>History of Computers</b> </p> <p>Tabulating Machine was invented in 1890, by Herman Hollerith, an American statistician. It was a mechanical tabulator based on punch cards. Hollerith also started the Hollerith's Tabulating Machine Company which later became International Business Machine (IBM) in 1924.</p>  </div>
<p><b>1642</b> (Counting Device)</p>	<div style="border: 1px solid black; padding: 10px;"> <p style="text-align: right;"><b>History of Computers</b> </p> <div style="display: flex; align-items: center;">  <div> <p>Analytical Engine was developed by Charles Babbage who is considered as the Father of computers.</p> <p>The analytical engine had five units - Input, Output, Store, Mill, and Control. All the computers that are used nowadays are based on it.</p> </div>  </div> <p style="text-align: right; font-size: small;"><small>Charles Babbage</small> <span style="margin-left: 150px;"><small>Analytical Engine</small></span></p> </div>
<p><b>1850</b> (First Mechanical Computer)</p>	<div style="border: 1px solid black; padding: 10px;"> <p style="text-align: right;"><b>History of Computers</b> </p>  <p>ENIAC Electronic Numerical Integrator and Computer was the first General purpose electronic digital computer invented by John Mauchly. It can solve a large class of numerical problems.</p> </div>
<p><b>1890</b> (Foundation for IBM)</p>	<div style="border: 1px solid black; padding: 10px;"> <p style="text-align: right;"><b>History of Computers</b> </p>  <p>Pascaline was the first mechanical and automatic calculator. It was invented by a French mathematician-philosopher Blaise Pascal. It could only perform addition and subtraction.</p> </div>
<p><b>1946</b> (First High speed Electronic Digital Computer)</p>	<div style="border: 1px solid black; padding: 10px;"> <p style="text-align: right;"><b>History of Computers</b> </p>  <p>Abacus was the first Mechanical calculating machine used for doing arithmetic calculations. It was developed in China.</p> </div>
