Harry Potter and the Sorcerer's Stone Novel

Harry Potter's life is miserable. His parents are dead and he's stuck with his heartless relatives, who force him to live in a tiny closet under the stairs. But his fortune changes when he receives a letter that tells him the truth about himself: he's a wizard. A mysterious visitor rescues him from his relatives and takes him to his new home, Hogwarts; a place to learn magic spells, a school of Witchcraft and Wizardry.

After a lifetime of bottling up his magical powers, Harry finally feels like a normal kid. But even within the wizard community, he is special. A Visually Monumental And Thoughtful Sci-Fi Epic <i>"Interstellar"</i>	
I have just watched Interstellar in Imax 70mm. Science Fiction fans can read on though everyone else can skip. The movie is a visual masterpiece. Like his earlier movies, Christopher Nolan once again proves how big a movie can be! There were some shots, which made the audience go crazy. Some scenes were as epic as 2001: A Space Odyssey. Do not go into the theatre expecting an action-packed cerebral thriller. This one is not for action fans. At times, movies go highly sentimental (Matthew McConaughey does what he is best in and supposed to).	1 5
I recommend this movie to all the Sci-Fi fans out there. Make sure you go in a group of sci-fi nuts! Do not go with the hype. Go, sit back and enjoy. Just like Inception, this movie will be known as a great movie after few months (I know people who said Inception was crap when it was released, and after few months rating it 10/10 in IMDb). I don't want to spoil anything. Also, make sure you go to the best theatre close to you. (If you loved Donnie Darko, 2001: A Space Odyssey, this is the one for you, Get ready to get mind blown!!) Interstellar Movie is EPIC in all senses!!	10 15

3. What makes the author mention Inception as a comparison?
- It's to show the similarity as crap of Hollywood movies.
 - It's to show the same actors starring in the movie.
 - It's to compare the movie production costs.
 - It's to emphasize that the movie will be as great as Inception later on.
 - It's to give evidence that Inception is not satisfactory.
