

Match each location factors with the correct picture:

A Stone, wood and clay were to be found nearby.

E A site safe from flooding and away from marshy areas.

B A place where the river was shallow and narrow enough to enable a bridge to be built.

F There was land for rearing animals and growing crops.

C A place needed shelter from the prevailing south-westerly and cold northerly winds.

G A good defensive site would be within a river bend or on a hill.

D Fuel for heating and cooking could be found.

H A settlement needed to be close to a reliable source of fresh water.
