

**Read and do the activities****B. Air Traffic Controller**

I'm an air traffic controller. My job is to co-ordinate the movement of aeroplanes, and direct them to keep flying schedules on time. An air traffic controller handles every plane that is taking off or landing. I usually work forty-hour weeks. I may work night or weekend shifts. It is a very stressful occupation. Speech communication, mathematics, science, foreign languages, and electronics are helpful for this career.

**1. Match (Ένωσε τις εικόνες με τις προτάσεις)**

This aeroplane is about to land.

I'm helping the pilot of this aeroplane take off.

This is the control tower where I work.

## 2. Match (Ένωσε τις εικόνες με τα μαθήματα)

Speech  
communication

Foreign  
languages

Science

Mathematics

Electronics

## E. Ecologists

I'm an ecologist. Ecologists can work in a lab but also go out to the area in which a plant grows or an animal lives and study them. I may do some volunteer work, too. Next summer I'm travelling to the Amazon to study certain types of plants there.

Working as part of a team and independently are good skills for someone who wants to be an ecologist. Good communication skills are also important. Useful subjects are biology, mathematics, and computer science.
