

First question:

What is coding?

Second question:

Do you know how to code?

Third question:

Your favorite coding program(snake):

Put the latest version of each coding program:

Python C#

Java C++

3.9.2

5.0

16.2.0

64.0

Put right names of coding programs under logo:

java

C sharp

C plus-plus

python

COMBINE THE RIGHT VARIANTS:

Program names	Program's codes
Python	<pre>double x, y, z; Console.WriteLine("x=35"); Console.WriteLine("y=7"); x = Double.Parse(Console.ReadLine()); y = Double.Parse(Console.ReadLine()); z=(x+y)\7; Console.WriteLine("Ten bolip ala alady={0},z"); Console.ReadLine();</pre>
Java	<pre>print("Bul osimdik myn aurudyn emi,tuetaban tukymdasyna jatatyn uly osimdik") osimdik=input("Jauaby:") if (osimdik=="adyraspan"): print("Duryys") else: print("Kate")</pre>
C#	<pre>int a=7; double s=6*a*a; double v=a*a*a; System.out.println("s="+s); System.out.println("v="+v);</pre>
