

You are going to read a story about two friends. In each line there is one word that should not be there. It is either grammatically incorrect or does not fit in with the sense of the text.

Read the text and then copy the extra word in the space provided after each line. Some lines are correct. The task begins with two examples (0).

LET'S HOPE THEY LIKE THEIR NEIGHBOURS!

0) The small Alaskan town of Whittier sees up to 250 inches of the	the
0) snow annually. Surrounded only by mountains and the sea, the	✓
remote town is so isolated that it's only accessible by the North	
America's longest one-way tunnel, which one stretches for two and	
a half miles. In Whittier all 218 residents live in one single multi-	✓
story building. The building several houses the town's entire	
neighbourhood, including in the local police department, a school,	
two convenience stores, a laundromat and the post office. The local	✓
church performs baptisms in an inflatable pool in the same	
basement and children can enough easily knock on their teacher's	
door for homework help in the evenings. Most of residents work for	

the port as boat mechanics, but a few drive out to work outside the community.
