Hello, everyone. This is Camila and Kaori reporting from Lurin. Here, we can observe a serious problem. **People are cutting the trees and destroying the habitat of animals.**

The consequence of this problem is that animals are going under extinction.

Authorities need to come and do something to stop it.

Thanks for watching.

Choose one “Heading”:

- a) Air in Lurin and angry humans
- b) Mercury in waters of Lurin
- c) Deforestation is a problem in Lurin

Chilca is the home for the factory FUCSA. They produce a lot of smoke when they work metals to the mining industry. In that area, neighbors do not see or listen to birds.

Biologists studying the area say **the smoke produced by the factory** makes birds migrate to other areas with cleaner air.

Choose one "Heading":

- d) Air in Lurin and angry birds
- e) Fish die in Lurin waters
- f) Hunting animals make birds migrate
