

## **JUNIOR B' - CHALLENGE 5**

## ROUND THE WORLD - ASIA/CHINA

## THE PANDA

## READ THE TEXT ABOUT PANDAS

Pandas live in the bamboo forests in China. They are also called 'Panda-bears', but they aren't real bears.

The male pandas are bigger than females and the small pandas are called 'cubs'. They are mammals and give milk to their babies.

The big pandas have got black and white fur, but the babies are pink.

They are very calm and lazy animals. They spend 12 hours eating bamboos and they sometimes eat grass, fruit, eggs or insects.

Now choose true or false.

|  |              |
|--|--------------|
| 1. Pandas live in China.                 | True / False |
| 2. They are real bear.                   | True / False |
| 3. The females are bigger<br>than males. | True / False |
| 4. They give fruit to<br>their babies.   | True / False |

5. The big pandas are white.      True / False
