

FRACCIONES EQUIVALENTES

Las fracciones equivalentes son aquellas que representan la misma cantidad.

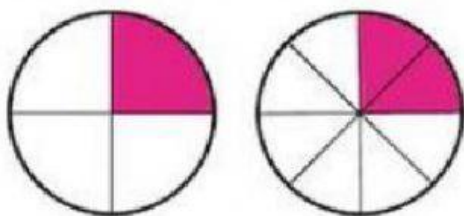

$$\frac{2}{5} = \frac{4}{10}$$

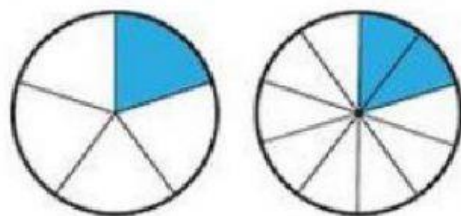

1. Mira atentamente y completa las siguientes fracciones equivalentes según corresponda.

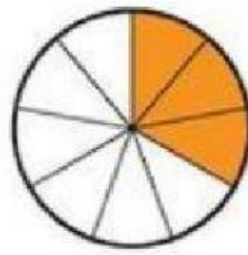

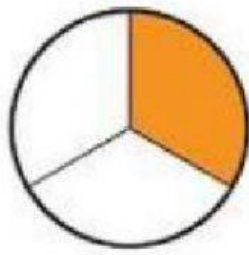

$$\frac{1}{2} = \frac{2}{4} = \frac{3}{6} = \frac{4}{8} = \frac{5}{10}$$

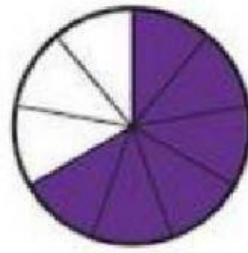

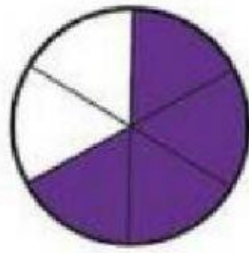

$$\frac{1}{4} = \frac{2}{8}$$

$$\frac{2}{5} = \frac{4}{10}$$
