

SUMAS

**UNIDADES DE MILLAR
+
CENTENAS**

Observa el ejemplo, e intenta las sumas:

$$1.800 + 700 = 1.800 + 500 = 2.000 + 500 = 2.500$$

$$3.400 + 900 = \boxed{} + \boxed{} = \boxed{} + \boxed{} = \boxed{}$$

$$2.700 + 800 = \boxed{} + \boxed{} = \boxed{} + \boxed{} = \boxed{}$$

$$8.900 + 800 = \boxed{} + \boxed{} = \boxed{} + \boxed{} = \boxed{}$$

$$1.200 + 900 = \boxed{} + \boxed{} = \boxed{} + \boxed{} = \boxed{}$$

$$6.800 + 300 = \boxed{} + \boxed{} = \boxed{} + \boxed{} = \boxed{}$$

Intenta sumar directamente realizando el procedimiento anterior:

$$6.400 + 800 = \boxed{} + \boxed{} = \boxed{}$$

$$7.300 + 900 = \boxed{} + \boxed{} = \boxed{}$$

$$2.800 + 600 = \boxed{} + \boxed{} = \boxed{}$$

$$5.500 + 600 = \boxed{} + \boxed{} = \boxed{}$$

$$8.200 + 900 = \boxed{} + \boxed{} = \boxed{}$$

$$4.600 + 800 = \boxed{} + \boxed{} = \boxed{}$$
