

An Interview with Dr. Donald

by Sam Green

- Sam:** Hello, Dr. Donald. Thank you for coming to talk with us. Please tell me about your work.
- Dr. Donald:** Hello, Sam. I have a big hospital for sick animals.
- Sam:** Where is the hospital?
- Dr. Donald:** It's in Tel Aviv.
- Sam:** How do the animals come to your hospital?
- Dr. Donald:** People usually bring their sick pets to the hospital. Sometimes people call us and say that there is a sick animal in the street. We go there and take the animal to the hospital. Sometimes I find sick animals on my way to work.
- Sam:** What special animals do you have in your hospital now?
- Dr. Donald:** We have a huge lizard, two yellow frogs and a kiwi.
- Sam:** What animal is your favorite?
- Dr. Donald:** Well, I love all the animals that come to my hospital. But my favorite is Fluffy. He is a sick white puppy. Fluffy is beautiful and soft. He has a problem with his legs. With the help of all the doctors, I hope that next week the puppy will feel OK and go home.
- Sam:** Thank you, Dr. Donald.
- Dr. Donald:** You are welcome, Sam.
