

Long Division with a Grid (C)

Name: _____

Date: _____

Calculate each quotient.

$$\begin{array}{r} 5) 7 7 6 5 \\ \hline \end{array}$$

A 6x6 grid for long division. The divisor 5 is written above the first column. The dividend 7765 is written to the right of the grid. There are 5 rows of 6 squares each, with a horizontal line at the bottom.

$$\begin{array}{r} 4) 1 0 1 2 \\ \hline \end{array}$$

A 5x6 grid for long division. The divisor 4 is written above the first column. The dividend 1012 is written to the right of the grid. There are 4 rows of 6 squares each, with a horizontal line at the bottom.

$$\begin{array}{r} 2) 2 5 8 6 \\ \hline \end{array}$$

A 5x6 grid for long division. The divisor 2 is written above the first column. The dividend 2586 is written to the right of the grid. There are 4 rows of 6 squares each, with a horizontal line at the bottom.
