Read the following urban legend related to the organs traffic in USA:

In 1994, the Las Vegas police reported a disturbing series of crimes along the Vegas strip. The first victim was an Ohio man in town for a sales convention. At the bar in his hotel, the man happened to strike up a conversation with an attractive young woman. According to the man, the two hit it off, sharing several drinks over the course of a couple of hours. At some point, the man passed out, and when he came to, he found himself lying in a hotel bathtub, covered in ice. There was a phone on the floor beside the tub, with an attached note that said, "Call 911 or you will die." He called an ambulance and was rushed to the hospital, where the doctors informed him that he had undergone massive surgery. A gang selling human organs on the black market had removed one of his kidneys.

Now, answer the following questions giving full answers:

1. When did the police report a series of disturbing crimes in Las Vegas?

2. Where was the first victim from?

3. Where did the man meet a strange woman?
