

THE TERRACOTTA ARMY

Task 1. Watch the TED-Ed video about the incredible history of China's terracotta warriors. Are the following statements true or false? Write T for True or F for False.
<https://www.youtube.com/watch?v=mP5p4QbvPtc>

1.	The terracotta army was discovered by archaeologists in 1974.	
2.	The clay soldiers are the same size as real soldiers are.	
3.	Ying Zheng became the first emperor of China at the age of 13.	
4.	He was an ambitious but merciful ruler.	
5.	During his reign he introduced a uniform writing script throughout China.	
6.	He ruled over China for 36 years.	
7.	He had his best scientists work on finding an elixir of life that would enable him to never die.	
8.	He began building the underground necropolis in his last years of life.	
9.	130 war chariots and 600 horses were found in one of the underground pits.	
10.	The empty pit suggests that the emperor died before he could complete his grand project.	
11.	Only statues of warriors were buried along with the emperor.	
12.	Despite there being so many statues, no two soldiers are exactly alike.	
13.	Most of the statues have retained their original bright colors.	
14.	The emperor's tomb remains unopened due to concerns about the preservation of its contents.	

Task 2. Watch the video again and answer the following questions.

- When was the terracotta army discovered?
- How many clay soldiers were found in the underground chambers surrounding the emperor's tomb?
- How old was Ying Zheng when he came to power?
- How did he become the first emperor of China?
- How many years did he reign over China?
- What were his most important accomplishments?
- Why did he spend his last years searching for the elixir of life?
- Besides the terracotta soldiers, what other figurines were found in the underground necropolis?
- How many laborers worked on the project according to archaeologists?
- What features make each statue unique?
- Why hasn't the emperor's tomb been excavated yet?
- What is the emperor's tomb thought to contain?
