

MATEMÁTICAS

TEMA: ÁREA DE TRAPECIOS

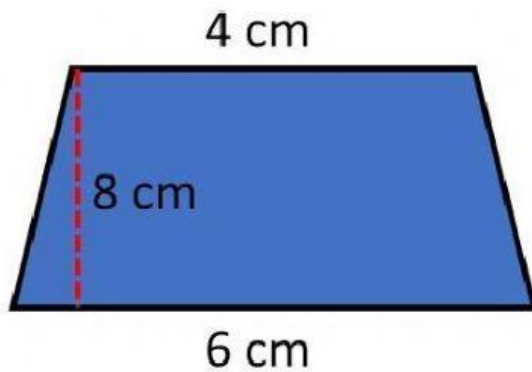

I. Escribe en los recuadros las medidas que correspondan. Resuelve las operaciones en tu libreta y contesta cuál es el área de cada trapezio.

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \frac{\square + \square \times \square}{2}$$

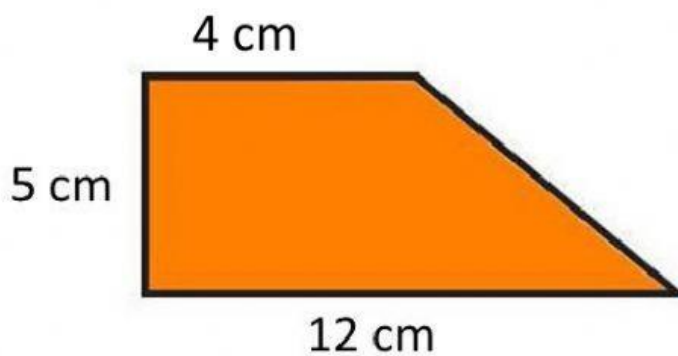

$$\text{Área} = \underline{\hspace{2cm}} \text{ cm}^2$$

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \frac{\square + \square \times \square}{2}$$

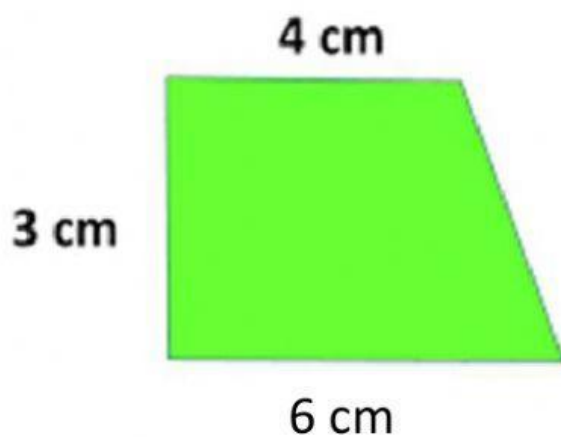

$$\text{Área} = \underline{\hspace{2cm}} \text{ cm}^2$$

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \frac{\square + \square \times \square}{2}$$

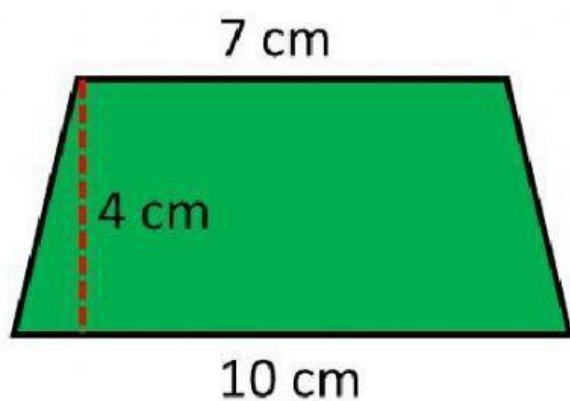

$$\text{Área} = \underline{\hspace{2cm}} \text{ cm}^2$$

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \frac{\square + \square \times \square}{2}$$

$$\text{Área} = \underline{\hspace{2cm}} \text{ cm}^2$$

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \frac{\square + \square \times \square}{2}$$

$$\text{Área} = \underline{\hspace{2cm}} \text{ cm}^2$$
