

Resuelve la actividad encontrando el número desconocido de las sumas utilizando también la descomposición. Observa el ejemplo:

$$25 + \boxed{\quad} = 69$$

$$60 - 20 = \boxed{40}$$

$$9 - 5 = \boxed{4}$$

$$40 + 4 = \boxed{44}$$

$$12 + \boxed{\quad} = 64$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} + \boxed{\quad} = \boxed{\quad}$$

$$34 + \boxed{\quad} = 98$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} + \boxed{\quad} = \boxed{\quad}$$

$$56 + \boxed{\quad} = 88$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} + \boxed{\quad} = \boxed{\quad}$$

$$43 + \boxed{\quad} = 79$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$$

$$\boxed{\quad} + \boxed{\quad} = \boxed{\quad}$$
