## Energy: types of energy

**Radiant energy.**  
This is the light that comes from the sun or light bulbs.

**Chemical energy.**  
We find this in batteries or food.

**Electrical energy.**  
It makes electrical appliances work (TVs, cooker...).

**Thermal energy.**  
This is heat, as the given off by an iron or heater.

**Mechanical energy.**  
It makes electrical appliances work (TVs, cooker...)
