

Sumas

Números de dos cifras

$$22 + 23$$

Descompongo en mi cabeza el número 23:

$$20 + 20 = 40$$

$$2 + 3 = 5$$

$$40 + 5 = 45$$

Otro ejemplo:

$$52 + 35 =$$

$$50 + 30 =$$

$$2 + 5 =$$

$$80 + 7 =$$

Y otro más:

$$61 + 17 =$$

$$+ \quad +$$

$$+ \quad =$$

$$+ \quad =$$

Ahora vamos a practicar:

$35 + 44 =$
