## Full Classic Novels Have Arrived on a Famous Photo Sharing Social Network

There is a hugely popular platform for users to share pictures, videos and messages with family and friends. This social media service is estimated to have more than 1 billion active monthly users worldwide. Most people use the service on their mobile phones. Now, the users of this platform are able to use the service for a completely different activity – reading books.

The New York Public Library recently launched a new service. This new offering will include a collection of classic books through the popular social network with the colorful camera icon. The service is available to all users, not just people in New York City.

Lewis Carroll's "Alice's Adventures in Wonderland" was the first on the app. The New York Public Library said this famous story was specially designed for the platform to include colorful animations and modern drawings.

The books can be found in the app's stories. This feature was designed to let users post photos and videos that would automatically disappear after 24 hours.

But Lewis Carroll's "Alice's Adventures in Wonderland" is not the only book users can find. The library has already lined up several other classic works to be released on the popular photo sharing social network in the coming months. These include "The Yellow Wallpaper," a short story by Charlotte Perkins Gilman, and "The Metamorphosis," by Franz Kafka.
