10. 10

Across

-
- A collage of four images related to astronomy. The top image shows a vibrant spiral galaxy with a bright yellow core and swirling purple and blue arms. The second image is a white and black telescope mounted on a black tripod. The third image depicts a bright comet streaking across a dark, starry night sky over a mountainous landscape. The bottom image shows a total solar eclipse with a bright ring of fire surrounding the dark silhouette of the moon.
