

## Fill in the blanks

1. An adult ticket costs \$20.35. It costs \$12.40 more than a child ticket.

Mrs. Johnson bought an adult ticket and a child ticket. How much did she pay for the two tickets?

What does a child ticket cost?

$$\$20.35 - \$12.40$$

A child ticket costs \$ .

Add an adult ticket of \$20.35 + a child ticket of \$7.95

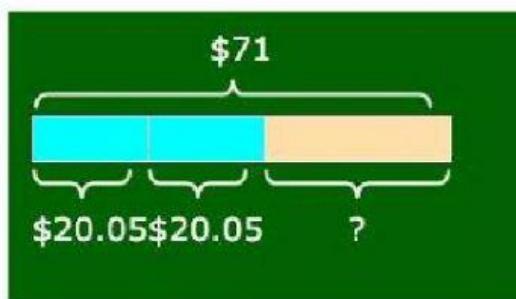

The answer is:

She paid \$ . for the two tickets.

---
