

Geometría

Tercer grado

LOS ÁNGULOS Y SU CLASIFICACIÓN

- 1.- Observa las agujas del reloj e identifica la clase de ángulo que se forma

- 2.- Une según corresponda:

Ángulo agudo

es el que mide más de 90°

Ángulo recto

es el que mide menos de 90°

Ángulo obtuso

es el que mide 90°

3.- Relaciona correctamente:

ÁNGULO OBTUSO

ÁNGULO RECTO

ÁNGULO AGUDO

4.- Clasifica estos ángulos

ÁNGULOS AGUDOS
<input type="checkbox"/>
<input type="checkbox"/>

ÁNGULOS RECTOS
<input type="checkbox"/>
<input type="checkbox"/>

ÁNGULOS OBTUSOS
<input type="checkbox"/>
<input type="checkbox"/>
