Working in the Garden

Mr. Peterson is my next door neighbor. He is 75 years old and loves to talk about his garden. Today he will need my help with the soil. When I went over to his place there was a small boy with him. Turns out it was his grandkid that had come over for the weekend. During the whole time the little kid didn't speak until noon. When he spoke his voice sounded like a robot. Yes, like a robot. After lunch we got to play with the little kid's toys which were pretty cool. Finally to finish helping Mr. Peterson we had to moisten the bases for the plants and place them on the bench. It was a quiet evening with no noise only Mr. Peterson, his grandkid and me looking at the sunset.
