

Acertijo matemático

¡Vamos!

$2 \times \square = 24$

$\begin{array}{c} - \\ 3 \\ = \\ \square \end{array}$

$\square \times 5 =$

$\begin{array}{c} 30 \\ + \\ 15 \\ = \\ \square \end{array}$

$\begin{array}{c} : \\ \square \\ = \\ 5 \end{array}$

$15 + \square = 35$

$\square \times 6 = \square$

¡Tú puedes!

$22 - \square =$

$\begin{array}{c} : \\ \square \\ = \\ 11 \end{array}$

$\begin{array}{c} + \\ 3 \\ + \\ = \end{array}$

$3 \times \square = 30$

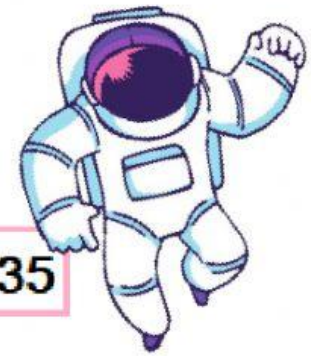

$8 \times \square = 32$

$\begin{array}{c} = \\ 7 \end{array}$

$7 \times \square = 70$

$31 - \square =$

$\begin{array}{c} : \\ 5 \\ = \\ \square \end{array}$

¡Logro desbloqueado!
