

2

Listen and answer.

Listen to the second part of the dialogue between Sami and Khalid and write (T) if the statement is True and (F) if it is False.

|                                                                                      | T | F |
|--------------------------------------------------------------------------------------|---|---|
| 1 Sami thinks that they do not need to use school buses any longer.                  |   |   |
| 2 Using auto-electric bikes will solve the problem of being caught in traffic.       |   |   |
| 3 Khalid thinks that this kind of bike might be safer than other kinds of transport. |   |   |
| 4 If students use this kind of bike, parents will know where their children are.     |   |   |
| 5 The auto-electric bike won't have any space for the school bag.                    |   |   |
