- C. Sarah thinks that the book isn't difficult for Tom.
- D. Sarah is worried that the book isn't suitable for Tom.
- E. Sarah is happy to go and get a different book if Ed wants her to.

Task 4. Reading

/6x3=18 points/

Read the article about honey. Choose the correct answer A, B, C, D or E :

What do you know about honey? It's sweet and sticky, it tastes great on bread and in hot drinks, and it's a pleasant alternative to sugar. However, there's a lot more to honey than meets the eye and one day it may replace many of the items in our medicine cabinet. Doctors throughout history have appreciated the medicinal properties of honey. In Ancient Egypt it was used to treat cuts and burns. The Ancient Romans used it to help people with sleeping disorders and the Ancient Greeks used it to cure skin diseases, ulcers and sores. More recently, German doctors mixed it with cod liver oil to treat battle wounds during WWI, and opera singers have been known to use it to boost their energy and soothe their throats.

Today, as homeopathic medicine is becoming more popular, honey has been rediscovered as a natural remedy and is being used successfully to treat many ailments such as anaemia, arthritis, colds and stomach ulcers. It is particularly effective in the treatment of burns and wounds. Honey aerosol sprays have even been used to treat chronic bronchitis.

The beauty industry has also recognized the natural benefits of honey and there are many cosmetic companies which use honey based products. These include creams, lotions, soaps and face masks which claim to help heal **blemishes**, reduce the appearance of scars, moisturize the skin, soften wrinkles and make skin look younger and healthier. There are also a number of honey based hair care products which claim to strengthen hair and make it softer, shinier and healthier. Honey, and products containing honey, have always been popular items in health food shops. It is sold in various forms as a remedy for sore throats, stomach ulcers and as a gentle, natural laxative.

Medical researchers are still working on identifying the role that honey could play in traditional medical practice, but they all agree that we should not be using the honey in our kitchen cupboards to treat ourselves. This is because many commercial brands actually contain bacteria which could contaminate an open wound. They also agree, unfortunately, that simply eating honey has minimal health benefits.

32. Honey was used to treat fight injuries by
A. The Ancient Romans B. The Ancient Greeks C. German doctors D. The Ancient Egyptians E. Local People
33. Honey is used today as a natural treatment by
A. the beauty industry B. homeopaths C. biochemists D. medical researchers E. commercial brands
34. Products containing honey
A. act as natural laxatives
B. remove scars
C. are used in cosmetics
D. improve the hair and skin
E. make your skin shinier and healthier
35. The word "**blemish**" is closest in meaning to
A. scar B. wound C. wrinkle D. spot E. crease
36. Saleable brands of honey
A. should be kept in cupboards
B. may contain bacteria
C. can be used to treat ourselves
D. often get contaminated
E. are good for your health
37. All of the following are false EXCEPT
A. honey helps hair to grow
B. honey helps to treat heart disease
C. honey helps you to sleep well
D. honey helps treat eyes
E. honey helps to treat diabetes

Task 5. Error recognition

/5x3=15 points/
