

SPACE COWBOYS

What did the pilots of the US Airforce train for?

How fast did they fly?

What were they destined to do?

At the end who went to space first?

How long ago did a Russian tracking sattelite appear?

What is the guiding system like on this sattelite?

Who can fix this problem?

Under what conditions will Frank do the job?

When are the old pilots allowed to go to space?

What kind of kid has she never met?

What did the Russians do to the sattelite?

How does he want to complete the mission?
