Gado-gado

Gado-gado is my favorite food. It's a traditional food from Indonesia. My mom says that gado-gado is healthy. Why? Because you can find a lot of vegetables in it, such as sprout, spinach, tomato and potato. Sometimes it also contains other vegetables, like lettuce, cabbage, and carrot. And there are some fried tofu, and boiled egg in it. I like hot gado-gado, so I often mix the gado-gado dressing with some chillis.
